Performance Initiatives Undertaken

The Unit conducts an internship program to assist members of the community in learning skills needed for employment in broadcasting. The interns work in the various departments of the newsroom to experience every aspect involved in the operation of a news station. They are encouraged to ask questions, research and suggest story ideas, and conduct phone interviews. A successful internship can lead to future employment opportunities with the Unit.

The Unit participated in several job fairs, including Mount St. Mary's, American University, University of Maryland, American University, Mayor Adrian Fenty's City-Wide Job Fair, and Howard University. Information about the Unit and its current job opportunities are highlighted at the job fair.

Several of the Unit's reporters and other staff made appearances at schools government agencies, and held tours at the station to allow members of the community an opportunity to ask questions and learn about broadcasting in general, the operation of a radio station and job opportunities.

On-air announcements were run asking organizations interested in receiving notices of job opportunities to contact the Unit. Current outreach organizations were contacted to ascertain whether the notices regarding job openings were helpful and whether the Unit should continue to send the notices.
